

AIROLIT SERVICE AGREEMENT

We recommend service at regular intervals to maintain functionality and safety on all Airolit UAVs. With our service agreement, you pay a fixed annual cost for service, repairs, and replacement of wearing parts.

WHAT IS INCLUDED?

An Airolit Service agreement gets you an any-time service at a fixed annual cost.

- We offer a Standard Service agreement with system updating, basic component changes, and service according to the number of hours of flight time.
- We also offer an Advanced Service agreement. This means that you get everything in the Standard agreement, but also motor balancing, battery health check, and remote control system updates.

OUR AGREEMENTS

STANDARD SERVICE 7,500 SEK/year

1

- Service on the proposed interval – 100hrs flight time (first service after 50hrs)
- Full hardware and system check
- Installation of the latest system updates
- Basic component change if necessary (normal wear).

2

ADVANCED SERVICE 14,000 SEK/year

- Everything in the Standard service agreement, plus:
- Motor balancing
 - Motor wiring check
 - UAV power plug change
 - Battery health check
 - Remote control system check and update.
